

Circuit of the Americas™ F-1 Comes to our Meetup Group!

Countdown to F1 racing in Austin

Join Austin business owners for an exclusive inside scoop on the [Circuit of the Americas](#) and F1 racing in Austin.

Todd Fleming, Vice President, Sales of the Circuit of the Americas will present an overview of the venue, the events and what it all means to Austin businesses.

It seems that you can't turn on the local news channels these days without hearing about the exciting F1 race-track being built in Southeast Travis County just off toll road 130 in Elroy TX. The trouble with the news is you only get a few

minutes of information—and you can't ask questions.

Mr. Fleming will spend an entire hour presenting information and answering your questions about the first race scheduled for mid November, how the facility will be used for other purposes, and more importantly, the impact of this world class event on Austin.

There are opportunities for many small business owners to make money around the F1 events. Officials estimate 120,000 spectators will be at the first race. State, city and other officials are estimating the annual area income caused by events at COTA will be approximately \$400 to \$500 million. There is a big opportunity for small business owners to cash in. Come to this presentation and get the straight scoop on the venue, the events and the opportunities.

This will be a rare opportunity to hear about Austin's newest venue as well as ask questions of its executive level representative.

Seats are limited so please sign up now!

When: July 26, 2012
